

The Lakes Lutheran Church
Updated CDC Guidance Regarding Masking
May 15, 2021

Per recent CDC guidance, Nevada Health Response, and the Southern Nevada Health District, the wearing of face coverings by those who are fully vaccinated (that is two weeks after receiving your final dose) is optional while meeting inside and outside The Lakes Lutheran Church. Physical distancing requirements of at least 3 feet between persons of different households and varying, unknown, vaccinated status should continue to be followed while meeting. Those persons who are not vaccinated continue to be required to wear a face covering both nose and mouth while meeting inside and outside the building.

Consistent with the ethic of the Evangelical Lutheran Church in America, our governing church body, The Lakes Lutheran Church encourages all persons to be vaccinated, if they are able to be vaccinated. In all things, it is the hope of The Lakes Lutheran Church that all will continue to exercise caution and practice love for our neighbors and our Las Vegas community.
